## Commodities Testing

Supporting confident trade

Explore our **FOSFA** and **GAFTA** accredited testing services

**Whether you are trading feed materials or edible oils, our accredited testing services help ensure quality and compliance, safeguard contracts, and reduce disputes. Provided by our Eurofins Food Testing UK laboratory in Ipswich, our analysis delivers independent, trusted results with the speed, accuracy, and reliability needed to support confident trading decisions.**

### **FOSFA International – oils, fats, and oilseeds**

The Federation of Oils, Seeds, and Fats Association (FOSFA) sets global standards for the trade and transport of oils, fats, and related products.

Eurofins Food Testing UK's Ipswich Laboratory is a registered FOSFA Full Member Analyst, providing:

- 
- ✓ FOSFA contractual analysis
  - ✓ Oils and fats testing
  - ✓ Certificates with FOSFA Seal
  - ✓ Ongoing quality checks

### **GAFTA – grains and animal feeds**

The Grain and Feed Trade Association (GAFTA) governs trade of grains, animal feed, and related commodities, ensuring legal clarity and quality assurance across global supply chains.

Through Eurofins Food Testing UK Ipswich laboratory (GAFTA Approved Analyst for feed) and Eurofins Food Testing Rotterdam BV (GAFTA Approved Analyst for grains) we provide:

- ✓ GAFTA sample analysis
- ✓ Feed standards testing
- ✓ Accredited trade results

### **Why choose Eurofins?**

With internationally recognised FOSFA and GAFTA accreditations, Eurofins network of laboratories provides Certificates of Analysis that are trusted across global commodity trade.

Our expertise is built on decades of analytical experience, supported by a strong commitment to quality, compliance, and impartiality.

## Other areas of expertise

### Vitamins

The Eurofins Vitamin Competence Centre in Denmark is dedicated to the analysis of vitamins and amino acids, offering a state-of-the-art service for our customers.

### Speciation

Eurofins speciation tests are accredited for both qualitative and quantitative analysis using RT-PCR and DNA sequencing.

### Authenticity

We have significant experience and expertise in risk assessing food products including testing of food authenticity.

### CBD
